

F-21 For India. From India.

The F-21: Different – Inside and Out

Lockheed Martin. Your Mission is Ours.™

THE F-21 IS SPECIFICALLY CONFIGURED FOR THE INDIAN AIR FORCE AND ENABLES UNMATCHED 'MAKE IN INDIA' INDUSTRIAL OPPORTUNITIES.

The F-21 demonstrates Lockheed Martin's commitment to delivering an advanced, scalable fighter aircraft to the Indian Air Force that provides unrivaled industrial opportunities and accelerates closer India-U.S. cooperation on advanced technologies.

ADVANCED CAPABILITIES FOR INDIA'S WARFIGHTERS

The F-21 features numerous India-specific changes – inside and out – tailored to meet the Indian Air Force's requirements.

Innovative technologies derived from Lockheed Martin's F-22 and F-35 – the world's only two operational 5th Generation fighters – strengthen India's path to an advanced airpower future.

UNMATCHED 'MAKE IN INDIA' OPPORTUNITIES

An F-21 partnership integrates India into the world's largest fighter aircraft ecosystem with the world's pre-eminent defence company. Lockheed Martin and Tata Advanced Systems would produce the F-21 in India, exclusively for India.

This unprecedented 'Make in India' opportunity combines the strength of the world's largest defence contractor with India's premier industrial house to deliver a historic win-win for India and the U.S.

F-21 FOR INDIA, FROM INDIA

- Advanced, scalable fighter for India
- Increased survivability, lethality, growth capacity and modernization
- Game-changing 'Make in India' partnership
- Further leverages 5th Generation technologies
- Win-win for India and the U.S.
