Schedule H. Line 4i—Schedule of Assets (Held At End of Year)	11

INDEPENDENT AUDITOR'S REPORT

Plan Administrator and Plan participants Lockheed Martin Savings Plan for Employees in Puerto Rico

Opinion

We have audited the financial statements of the Lockheed Martin Savings Plan for Employees in Puerto Rico (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023, and the changes in net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

1625 K Street, NW Washington, DC 20006 **T** +1 202 293 7500 **F** +1 202 465 3149

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedule Required by ERISA

Mitchell: Titas, LLP

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Lockheed Martin Savings Plan for Employees in Puerto Rico Notes to Financial Statements

1. Description of the Plan

The following description of the Lockheed Martin Savings Plan for Employees in Puerto Rico (the Plan) provides only general information about the Plan's provisions. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 2021, is a defined contribution profit-sharing plan covering the eligible Puerto Rico employees of Lockheed Martin Global Inc. (the Company), a subsidiary of Lockheed Martin Corporation (the Corporation). The Company is the Plan Sponsor and the Plan Administrator. Empower is the record keeper and Banco Popular de Puerto Rico is the Trustee of the Plan.

Contributions

The Plan allows eligible employees to make contributions on a before-tax and after-tax basis. Each calendar year, eligible employees may make before-tax contribution up to 25% of the employee's base salary, subject to regulatory limitations and may make after-tax contribution up to 10% of the employee's base salary, but combined contributions cannot exceed 25%. If automatically enrolled, a participant's contribution is set at 2% of base salary as a before-tax contributions. The Plan has an auto-escalation feature whereby contributions for those automatically enrolled are increased 1% each calendar year up to 6% unless changed by the participant. The Plan permits catch-up contributions for participants age 50 or older in the calendar year. The Company contributes a matching contribution equal to 100% of the participant's contribution up to 2% of the participant's base salary. In addition to employer matching contribution, the Company contributes an employer contribution of 2% of employee's weekly base salary.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching, and employer contributions and the respective investment earnings or losses, less expenses, of the individual funds in which the account is invested. Participants are immediately vested in 100% of the account balance.

Notes Receivable from Participants

Participants may borrow up to 50% of their total vested account balance a minimum of \$500 and up to a maximum amount of \$50,000. In addition, participants may have one outstanding loan at a time and may take up to 5 years to payback their loan or up to 30 years if the loan is for the purchase of their primary residence through weekly payroll deductions. If the participants have an outstanding loan and terminate employment with the Company, participants may continue to make loan repayments on a monthly basis until the scheduled payoff date by direct debit from their bank account or by certified check, cashier's check or money order. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Lockheed Martin Savings Plan for Employees in Puerto Rico Notes to Financial Statements (continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive his or her account balance through a number of payout options. A participant is entitled to the account balance at the time his or her employment with the Company ends.

Plan Termination

Although it has not expressed any intent to do so, the Board of Directors of the Company has the right to amend, suspend or terminate the Plan at any time, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, participants will receive a payment equal to the total value of their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments in the Plan are reported at fair value. Fair value is the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the net realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Lockheed Martin Savings Plan for Employees in Puerto Rico Notes to Financial Statements (continued)

Administrative Expenses

All direct and indirect administrative expenses are paid by the Corporation.

Subsequent Events

The Plan has evaluated subsequent events through June 24, 2024, the date the financial statements were available to be issued. No material subsequent events have occurred since December 31, 2023 that required recognition or disclosure in these financial statements.

3. Fair Value Measurement

The accounting standard for fair value measurements defines fair value, establishes a market-based framework or hierarchy for measuring fair value, and requires disclosures regarding fair value measurements. The standard is applicable whenever assets and liabilities are measured and included in the financial statements at fair value.

The fair value hierarchy established in the standard prioritizes the inputs used in valuation techniques into three levels as follows:

- Level 1 Quoted prices in active markets for identical assets and liabilities;
- Level 2 Observable inputs, other than Level 1 prices, such as quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, and amounts derived from valuation models where all significant inputs are observable in active markets; and
- Level 3 Unobservable inputs where valuation models are supported by little or no market activity
 that one or more significant inputs are unobservable and require us to develop relevant assumptions.

The following table presents the fair value of Plan assets by asset category and their level within the fair value hierarchy as of December 31, 2023 (in thousands):

	I	Level 1	Total
Cash and cash equivalents	\$	103 \$	103
Mutual funds		6,540	6,540
Total investments at fair value	\$	6,643 \$	6,643

The following table presents the fair value of Plan assets by asset category and their level within the fair value hierarchy as of December 31, 2022 (in thousands):

	L	evel 1	Total
Cash and cash equivalents	\$	57	\$ 57
Mutual funds		2,947	2,947
Total investments at fair value	\$	3,004	\$ 3,004

Lockheed Martin Savings Plan for Employees in Puerto Rico Notes to Financial Statements (continued)

Valuation Techniques

Cash equivalents are comprised of a short-term money-market instrument that is valued at cost, which approximates fair value.

Mutual Funds categorized as Level 1 are valued at a quoted market price available on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Parties-in-Interest Transactions

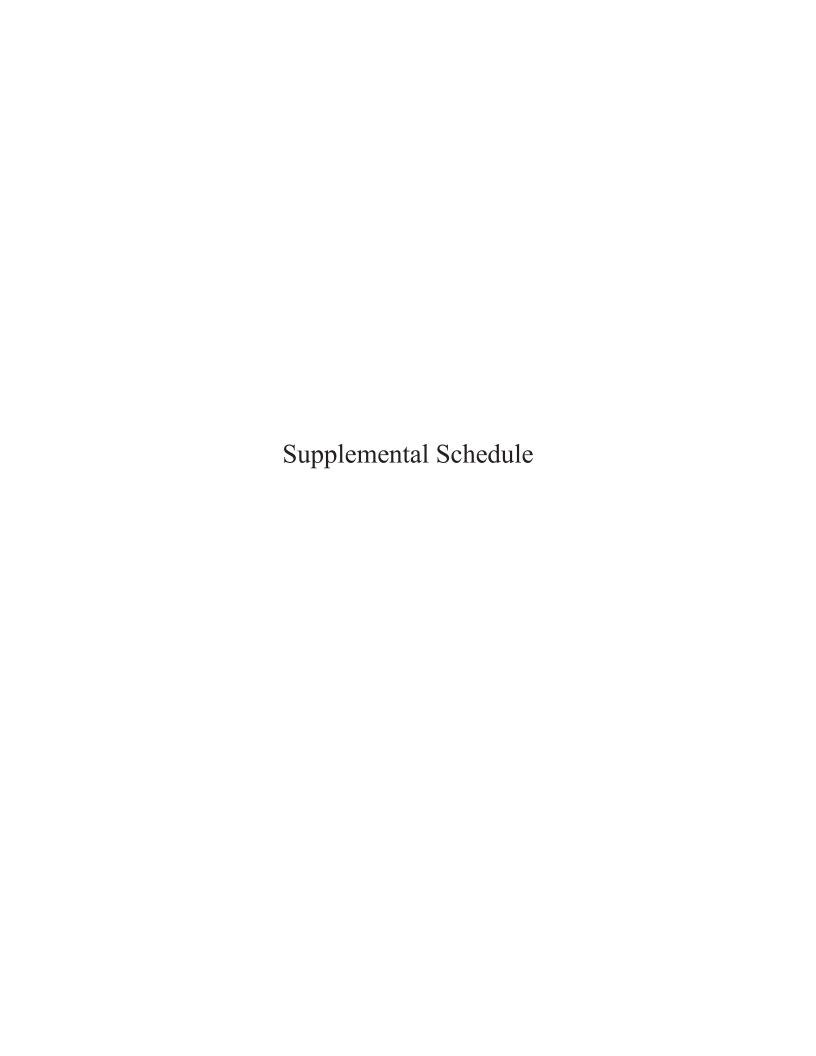

The Plan's assets include a Banco Popular Deposit Open account for purchasing and sale transactions managed by Banco Popular de Puerto Rico, the Trustee. Investments in this account qualify as party-in-interest transactions for which a statutory exemption from the prohibited transaction regulation exists.

In addition, notes receivable from participants are considered to be party-in-interest transactions for which a statutory exemption from the prohibited transaction regulation exists.

5. Income Tax Status

The Plan has received a favorable determination letter dated May 31, 2022, from the Puerto Rico Department of Treasury. The determination letter states that the Plan is entitled to exemption under Section 1081.01 of the Puerto Rico Internal Revenue Code of 2011, as amended. The Plan is intended to be qualified under Puerto Rico tax laws, but not U.S. tax laws and, accordingly, no determination letter will be requested from the Internal Revenue Service (IRS). Therefore, no provision for income taxes has been made in the financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan to determine whether the Plan has taken any uncertain positions that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements.
