

***Shipment Processing Methods  
and Guidelines for Apriso and LMSupplier Connect***

# Non-Compliant Shipment Process Method

# Non-Compliant Shipment Process Method

## Shipment Example:

- PO 4110012345
- PO Line Item 001
- PO Line Item Order Quantity: 150 EA
- Desired Shipment Quantity: 75 EA

## LMSupplier Connect ASN Shipment:

- PO Line Item 001
  - ASN 1
    - > Delivery Item 1 – 25 EA
    - > Delivery Item 2 – 25 EA
    - > Delivery Item 3 – 25 EA

## Apriso Pre-Ship Insp Order Shipment:

- PO Line Item 001
  - Pre-Ship Insp Order 1 – 75 EA

*\*Apriso Inspection Orders can be either Pre-Ship or Source Inspection*

## Example Summary:

- ✓ The above shipment processing example is not supported!
- ✓ Apriso pre-ship Insp Order quantities **MUST BE** retained when processing an ASN in LMSupplier Connect, else shipment processing errors will occur
- ✓ All shipment processing separation **MUST BE** performed in Apriso during pre-ship Insp Order processing

# Compliant Shipment Process Methods

# Compliant Shipment Process Method

# #1

## Shipment Example:

- PO 4110012345
- PO Line Item 001
- PO Line Item Order Quantity: 150 EA
- Desired Shipment Quantity: 75 EA

## LMSupplier Connect ASN Shipment:

- PO Line Item 001
  - ASN 1
    - > Delivery Item 1 – 25 EA
    - > Delivery Item 2 – 25 EA
    - > Delivery Item 3 – 25 EA

## Apriso Pre-Ship Insp Order Shipment:

- PO Line Item 001
  - Pre-Ship Insp Order 1 – 25 EA
  - Pre-Ship Insp Order 2 – 25 EA
  - Pre-Ship Insp Order 3 – 25 EA

*\*Apriso Inspection Orders can be either Pre-Ship or Source Inspection*

## Example Summary:

- ✓ Shipment method leverages use of a single unique ASN with pre-ship Insp Order quantities spread over 3 delivery items
- ✓ Reflects the most efficient shipment processing example
