2. Shipping/Packaging Information

2.1 Requirements that are identified herein as FOB shipping point require Seller interface with LOCKHEED MARTIN transportation prior to hardware or item shipment. LOCKHEED MARTIN will not pay for shipping expenses that are arranged by Seller and invoiced to LOCKHEED MARTIN. Detailed shipping instructions are located at the LOCKHEED MARTIN P2P portal (<https://procure.external.lmco.com/irj/portal/lmroutingguides>), you will be prompted to logon to EXOSTAR before accessing this URL.

2.2 Each line item on the purchase order must be shipped in separate packaging. This is essential and necessary to meet requirements even though part numbers may be the same for two separate line items. Individual line items are generated by LOCKHEED MARTIN to support both commercial and U.S. Government requirements and may require different processing before final delivery to the customer.

2.3 If any item on this order is to be shipped in place or drop shipped to a location other than Lockheed Martin Missiles and Fire Control, Seller shall complete the Inbound Delivery and Barcode per paragraph 2.4. Seller shall furnish to LOCKHEED MARTIN a copy of the shipping document/packing slip.

2.4 Barcode:

The LMP2P SHIP TO LMC guidebook is located at
<http://www.myexostar.com/WorkArea/DownloadAsset.aspx?id=315>

To directly access the Exostar P2P Portal link go to <https://portal.exostar.com>. Seller shall print and supply two barcode labels before shipping products to LOCKHEED MARTIN. Seller shall attach one label to the container and the second label to the packing slip.

The barcode is created using the P2P "SHIP TO LMC" process. During the SHIP TO LMC process, an Inbound Delivery number will be created and displayed as part of the Barcode document. Creating the Inbound Delivery number is critical to processing the receipt and invoicing.

2.5 Beginning 1/27/2022, a hard stop error will be added to the SHIP TO LMC process that will prevent shipment of material more than 120 days before it is scheduled. It will be impossible to create a new Inbound Delivery if this would cause the new cumulative quantity on all Inbound Deliveries to exceed the cumulative quantity of all schedule lines with Contract Delivery Schedule dates on or before the current date plus 120 calendar days. Call your LOCKHEED MARTIN Procurement representative if an expedited shipment is needed.
